

Our August trip to Kenya will start with Tsavo and Amboseli national parks, featuring the highest concentration of wildlife in Africa, and then end with the Masai Mara National Park, to see the migration of the 2 million wildebeest and zebra on the northern route of their migration, crossing the Mara River, trying to avoid the giant crocodiles and lions waiting in ambush. This trip will be led by Amazonia's biologist, Alfredo Dosantos Santillan, an accomplished nature photographer who will make a customized CD for everyone on the trip.
