

What are the guidelines for giving tips?

Tipping is not required. The staff of Amazonia Expeditions is very well paid with excellent benefits of family health insurance, disability insurance, retirement pensions and all other social benefits. Tips should only be given if your trip was outstanding and you are highly motivated to tip. The amount is solely at your discretion. If you wish to give some to all of the behind the scenes people responsible for maintenance, cleaning and cooking a group tip can be given c/o lodge managers Rolex or head hostess Bichina.
